## FRANTOI GRANULATORI

Frantoio-granulatori secondari a mascelle adatti a frantumare materiale di qualunque durezza con forti produzioni e buona poliedricità. Particolarmente indicati per ballast e stabilizzati.

## JAW CRUSHERS-GRANULATORS

Secondary jaw crushers-granulators suitable to crush even very hard rocks with high production and good shape. Specially useful for ballast and sub-bases.

## CONCASSEURS-GRANULATEURS

Concasseurs-granulateurs secondaires à machoires aptes à concasser tous les matériaux, même très durs, avec grand débit et bon coefficient de forme. Surtout indiqués pour ballast et sous-bases.
